More quality

Disposable gloves are strictly necessary Medical Devices and Personal Protection Equipment in different jobs to safeguard wearers' health and those who come into contact with them.

Choosing quality MD and PPE means better and longer protection.

Less waste

Choosing quality disposable gloves implies a lower consumption, thanks to less breaks and defects.

Manufacturers of high quality disposable gloves pay also more attention to the environmental impact of their production plants.

More green

We are particularly proud of our contribution in the reduction of plastic pollution.

To make our commitment tangible, we have chosen to support **4ocean**, a global movement cleaning up oceans and coastlines.

For each bracelet purchased, 4ocean will remove 1 pound of trash from the oceans.
