

REFLEXX T22

Main use

THERMOPLASTIC ELASTOMER GLOVE (TPE)

SUITABLE FOR SUSHI 

Glove quick to put on and take off thanks to the wide cuff.

Greater resistance and elasticity compared to polyethylene gloves, due to increased thickness and the use of more flexible material.

Excellent cost-effective alternative when used for hygiene purposes only.

The absence of powder reduces the risk of food contamination.

Ambidextrous.

100% FOOD

Features

Weight	2.0 g +/- 0.1 (M)
Palm thickness	0.05 mm +/- 0.003
Length	27 cm
Colour	Blue
Surface	Micro-roughened
